

28 September 1978

MEMORANDUM FOR: Deputy Director for National Foreign Assessment  
FROM: Director of Central Intelligence  
SUBJECT: [REDACTED]

STAT

1. Attached is a letter and some material from a college professor in [REDACTED] whom I met during a recent trip out there. He teaches a course in the history of espionage. I suggested to him that he might like to spend a sabbatical year with us sometime, though I didn't make him a definite offer. STAT
2. I would appreciate your looking it over to see if we have any interest in his coming here as a visiting scholar. I don't know whether [REDACTED] is the man to do it, but I am interested in some work on the history of intelligence and/or the history of the Agency. STAT
3. I would appreciate also if you would look into this, perhaps contacting [REDACTED] for his curriculum vitae and whatever else. STAT
